

## **SCHIP** **State Children's Health Insurance Program**

### **8/7/07 Union Leader voters public response:**

If ANY government was EVER good at doing anything, there might be some hope for this feel good, "it's for the children", bill. But history proves that governments primary interest is in the growth of itself and NOT in serving the people. It's safe to say that for every dollar of benefits paid, \$10.00 in taxes will have to be collected in order to pay the overhead of yet another wasteful government program. Hey Sen, Sununu, if you really want to help your constituents, let them keep more of the money they earned by cutting spending, entitlements and taxes.

A. J., Windham

A politician with "principals?" That would be a nice change in the political climate of the 21st Century. Judd Gregg showed he lacked principals during the illegal alien amnesty vote. And Senator Sununu. Another Republican falls to feel good politics.

GR Chase, Exeter, NH

When Sununu loses the next election the media will once again tout that New Hampshire is no longer a Conservative State. The news deia will be missing the fact that people like me are not going to vote for a Democrat no matter what party he claims to be in. Charlie Bass didn't learn the lesson after running the most ridiculous campaign add "being independent means working for the things that matter to all of Us" It looks like Sununu wants to stay in power more than he wants to stand on long standing NH principles.

# **BLEVENS FOR LIBERTY**

**Ken Blevens**

**2008 Libertarian Candidate for United State Senate**

**The one candidate who opposed the preemptive attack  
on Iraq in the 2002 election**

### **ISSUES**

- 1, War in Iraq
- 2, Law of the Seas Treaty
- 3, Immigration
- 4, State Children's Health Insurance Program

## The Candidate

- New Hampshire Native and lifelong resident who cares about preserving our way of life
- Veteran of the US Army
- Father to three children and Grandfather to four
- Entrepreneur, owning and operating a successful real estate business for 36 years
- Volunteer, serving the community through civic groups such as the Concord Exchange Club

## War in Iraq

Like Congressman Ron Paul, Ken Blevens has opposed the preemptive war in Iraq since the beginning.

**Blevens Response Nashua Telegraph 11/7/07**

Letters of Marque and Reprisal would have been the right way to go regarding the 9/11 criminal act. Ron Paul's support for a congressional solution was proper and should have been instituted and supported by the president.

## LOST

### Law of the Seas Treaty

Like all treaties this one clearly puts control in the hands of a few to control others free movement. As a strong believer in freedom, I could not support such a treaty. It only serves to further diminish our sovereignty. As a United State Senator, I would vote against its ratification.

## Immigration

As a firm believer in the US Constitution as the supreme law of the land, Ken Blevens could not support the violation of that law by congress passing a retrospective law. He will not support any effort except that of enforcing the present law and the deportation of anyone in this country illegally today.

## SCHIP

### States Children's Health Insurance Program

Concord Monitor stated "Here's one health care program that works."

Five word sentence by editors says it all. July 27, 2007

**"Government simply provides the money."**

Isn't it incredible that the editors of the **Concord Monitor** don't recognize a socialized agenda. When government simply provides the money for specific uses, be it children, the elderly, the uninsured, the un-housed, the un-fed, it has to bring to mind the socialist agenda of Lenin and others, who believed in taking from those who have and giving to those who need. How can we represent that we are a free people who cherish the rights to "life, liberty and property" when everyday these civic leaders proclaim another great cause to take more from those that have and give it to the needy.

I just wanted to express my concern regarding the downward trend of this country. Hopefully others will begin to speak up before it is too late. If you really want to know how I and other Libertarians feel about liberty go to my web site [www.kblevens.org](http://www.kblevens.org) and click on LIBERTARIAN INTRODUCTION, and than THE PHILOSOPHY OF LIBERTY. It is a visual introduction that is well worth watching.

### New Hampshire Constitution - Bill of Rights

Art.] 3. [**Society, its Organization and Purposes.**] When men enter into a state of society, they surrender up some of their natural rights to that society, in order to ensure the protection of others; and, without such an equivalent, the surrender is void. June 2, 1784

**For those of you** who believe that the word others in article 3 meant other people you would have to also believe that the founders were forming a socialized form of government. But for those of us that believe the word others refers to rights that are not being protected, how long before we void the surrender? Or organize a new society for the purpose contained in article 3?
